

R.F. TRANSMITTER/TAPE RECORDER DETECTOR TRD-800

The TRD-800 Tape Recorder/R.F. Detector is designed specifically to protect your information by "silently vibrating" in the presence of an operating magnetic recorder or R.F. bugging device. Discretely scan individuals (using the hidden wristband antenna) for audio or video recorders & audio or video transmitters. Designed to be worn on the body, the silent mode vibrator alerts only you in the presence of a recorder or bug. The antenna is designed to be worn on the wrist to scan colleagues while shaking hands.

FEATURES:

- Detects Tape Recorders & R.F. eavesdropping devices
Contains separate R.F. and magnetic receivers with independent indicators
- "Super Sensitive" Pocket-sized Design with Dual Mode Wristband Antenna
- Silent VIBRATOR Alert, with On/Off Selectability
- Manual Reset for Ident LEDs with Automatic Level Control
- Rechargeable Battery Pack (Self-Contained) with Low Battery LED Indicator
- Rugged, Aircraft Aluminum Construction with padded carrying case

SPECIFICATIONS:

Frequency Response: 10kHz - 1GHz
VLF Magnetic Response: 38-45 kHz
Tape Recorder Detection Range: 12-48 in
Internal battery: 7.2V 100mAh, 8-10hrs use per charge
External charger: 115 or 230 VAC available

Size: 7/8 x 2 1/4 x 3 1/2 in,
2.22 x 5.72 x 8.89 cm
Weight: 6 oz, 170 g

** Tape recorders must contain magnetic bias oscillators to be detectable.*
